Subject index

A

Abdominal aortic aneurysm; *see* **Aortic aneurysm, abdominal**
Acid-base equilibrium
Interpretation of arterial blood gases by nurses (Faria and Taylor). 1997;15:128-30
Amputation
Measuring quality and cost of care: Evaluation of an amputation clinical pathway (Schaldach). 1997;15:13-20
Aortic aneurysm, abdominal
Autologous blood transfusion: The benefits to the patient undergoing abdominal aortic aneurysm repair (Farrer et al). 1997;15:111-5
Endovascular grafting of abdominal aortic aneurysms (Lombardo). 1997;15:83-7
Aortic diseases
Dissection of the aorta: A clinical update (Finkelmeier). 1997;15:88-93
Arteries
Embolization of a lacerated artery after percutaneous drainage of a pelvic abscess (Sawhney et al). 1997;15:104-6 (View Box)
Interpretation of arterial blood gases by nurses (Faria and Taylor). 1997;15:128-30
Relationship between functional exercise capacity and general quality of life in nonsurgical patients with lower-extremity peripheral arterial disease (Bauman and Arthur). 1997;15:21-8
Arteries, transplantation
Endovascular grafting of abdominal aortic aneurysms (Lombardo). 1997;15:83-7
Autologous blood transfusion; *see* **Blood transfusion, autologous**

B

Bandages
Experience with open-heeled Unna boot application technique (Maune and Giordano). 1997;15:63-72
Bias
Perceived gender bias in the treatment of cardiovascular disease (Thurau). 1997;15:124-7
Blood gas analysis
Interpretation of arterial blood gases by nurses (Faria and Taylor). 1997;15:128-30
Blood transfusion, autologous
Autologous blood transfusion: The benefits to the patient undergoing abdominal aortic aneurysm repair (Farrer et al). 1997;15:111-5

C

Cardiovascular diseases
Perceived gender bias in the treatment of cardiovascular disease (Thurau). 1997;15:124-7
Care, patient; *see* **Patient care management**
Carotid endarterectomy; *see* **Endarterectomy, carotid**
Cerebrovascular disorders
Commentary on "The potential utility of a shared medical record in a 'first time' stroke population" (Spaner). 1997;15:34-6
The potential utility of a shared medical record in a "first-time" stroke population (Banet and Felchlia). 1997;15:29-33
Cluster analysis
Using cluster analysis to develop a healing typology in vascular ulcers (Johnson). 1997;15:45-9
Communication
An investigation of the explanatory model of venous disease: a pilot study (Nunnelee and Spaner). 1997;15:131-3
Cost-benefit analysis
Carotid endarterectomy clinical pathway: A nursing perspective (Christensen). 1997;15:1-7
Measuring quality and cost of care: Evaluation of an amputation clinical pathway (Schaldach). 1997;15:13-20
Redesigning the care of carotid endarterectomy patients (Blackburn and Neaton). 1997;15:8-12

D

Deep vein thrombosis; *see* **Thrombosis**
Dissection, aortic; *see* **Aortic diseases**

E

Endarterectomy, carotid
Carotid endarterectomy clinical pathway: A nursing perspective (Christensen). 1997;15:1-7
Redesigning the care of carotid endarterectomy patients (Blackburn and Neaton). 1997;15:8-12
Endovascular graft; *see* **Arteries, transplantation**
Enoxaparin
Low-molecular-weight heparin (Nunnelee). 1997;15:94-6
Exercise tolerance
Relationship between functional exercise capacity and general quality of life in nonsurgical patients with lower-extremity peripheral arterial disease (Bauman and Arthur). 1997;15:21-8
Extremities
Treatment and prevention of varicose veins (Johnson). 1997;15:97-103

G

Gender
Perceived gender bias in the treatment of cardiovascular disease (Thurau). 1997;15:124-7

Endovascular grafting of abdominal aortic aneurysms (Lombardo). 1997;15:83-7
Autologous blood transfusion; *see* **Blood transfusion, autologous**

B

Bandages
Experience with open-heeled Unna boot application technique (Maune and Giordano). 1997;15:63-72
Bias
Perceived gender bias in the treatment of cardiovascular disease (Thurau). 1997;15:124-7
Blood gas analysis
Interpretation of arterial blood gases by nurses (Faria and Taylor). 1997;15:128-30
Blood transfusion, autologous
Autologous blood transfusion: The benefits to the patient undergoing abdominal aortic aneurysm repair (Farrer et al). 1997;15:111-5

C

Cardiovascular diseases
Perceived gender bias in the treatment of cardiovascular disease (Thurau). 1997;15:124-7
Care, patient; *see* **Patient care management**
Carotid endarterectomy; *see* **Endarterectomy, carotid**
Cerebrovascular disorders
Commentary on "The potential utility of a shared medical record in a 'first time' stroke population" (Spaner). 1997;15:34-6
The potential utility of a shared medical record in a "first-time" stroke population (Banet and Felchlia). 1997;15:29-33
Cluster analysis
Using cluster analysis to develop a healing typology in vascular ulcers (Johnson). 1997;15:45-9
Communication
An investigation of the explanatory model of venous disease: a pilot study (Nunnelee and Spaner). 1997;15:131-3
Cost-benefit analysis
Carotid endarterectomy clinical pathway: A nursing perspective (Christensen). 1997;15:1-7
Measuring quality and cost of care: Evaluation of an amputation clinical pathway (Schaldach). 1997;15:13-20
Redesigning the care of carotid endarterectomy patients (Blackburn and Neaton). 1997;15:8-12

D

Deep vein thrombosis; *see* **Thrombosis**
Dissection, aortic; *see* **Aortic diseases**

E

Endarterectomy, carotid
Carotid endarterectomy clinical pathway: A nursing perspective (Christensen). 1997;15:1-7
Redesigning the care of carotid endarterectomy patients (Blackburn and Neaton). 1997;15:8-12
Endovascular graft; *see* **Arteries, transplantation**
Enoxaparin
Low-molecular-weight heparin (Nunnelee). 1997;15:94-6
Exercise tolerance
Relationship between functional exercise capacity and general quality of life in nonsurgical patients with lower-extremity peripheral arterial disease (Bauman and Arthur). 1997;15:21-8
Extremities
Treatment and prevention of varicose veins (Johnson). 1997;15:97-103

G

Gender
Perceived gender bias in the treatment of cardiovascular disease (Thurau). 1997;15:124-7

H

Healing of wound; *see* **Wound healing**
Heel
Experience with open-heeled Unna boot application technique (Maune and Giordano). 1997;15: 63-72

L

Leg
Relationship between functional exercise capacity and general quality of life in nonsurgical patients with lower-extremity peripheral arterial disease (Bauman and Arthur). 1997;15:21-8
Length of stay
Carotid endarterectomy clinical pathway: A nursing perspective (Christensen). 1997;15:1-7
Redesigning the care of carotid endarterectomy patients (Blackburn and Neaton). 1997;15:8-12
Low molecular weight heparin; *see* **Enoxaparin**
Lower extremity; *see* **Leg**

M

Medical records
Commentary on "The potential utility of a shared medical record in a 'first time' stroke population" (Spaner). 1997;15:34-6
The potential utility of a shared medical record in a "first-time" stroke population (Banet and Felchlia). 1997;15:29-33

P

Patient care management
Redesigning the care of carotid endarterectomy patients (Blackburn and Neaton). 1997;15:8-12
Use of store and forward technology for vascular nursing teleconsultation service (Lewis et al). 1997;15:116-23
Patient education
Commentary on "The potential utility of a shared medical record in a 'first time' stroke population" (Spaner). 1997;15:34-6
The potential utility of a shared medical record in a "first-time" stroke population (Banet and Felchlia). 1997;15:29-33
Peripheral vascular diseases
Relationship between functional exercise capacity and general quality of life in nonsurgical patients with lower-extremity peripheral arterial disease (Bauman and Arthur). 1997;15:21-8
Pregnancy
Deep vein thrombosis in pregnancy and the puerperium: A comprehensive review (Falter). 1997;15: 58-62
Puerperium
Deep vein thrombosis in pregnancy and the puerperium: a comprehensive review (Falter). 1997;15: 58-62

Q

Quality of health care
Measuring quality and cost of care: Evaluation of an amputation clinical pathway (Schaldach). 1997;15: 13-20
Quality of life
Relationship between functional exercise capacity and general quality of life in nonsurgical patients with lower-extremity peripheral arterial disease (Bauman and Arthur). 1997;15:21-8

R

Recent vascular nursing publications
Recent vascular nursing publications. 1997;15:110, 136
Rural population
Use of store and forward technology for vascular nursing teleconsultation service (Lewis et al). 1997;15:116-23

S

Sex; *see* **Gender**
Somatotypes
Using cluster analysis to develop a healing typology in vascular ulcers (Johnson). 1997;15:45-9
Store and forward technology; *see* **Technology**
Stroke; *see* **Cerebrovascular disorders**

T

Technology
Use of store and forward technology for vascular nursing teleconsultation service (Lewis et al). 1997;15:116-23
Telemedicine
Use of store and forward technology for vascular nursing teleconsultation service (Lewis et al). 1997;15:116-23
Thrombosis
Traumatic axillary and subclavian vein thrombosis after seat belt injury (Kurgan et al). 1997;15:134-5 (View Box)
Deep vein thrombosis in pregnancy and the puerperium: A comprehensive review (Falter). 1997;15: 58-62
Treatment outcome
Venous ulceration: Active approaches to treatment (Kowallek and De Palma). 1997;15:50-7
Typology; *see* **Somatotypes**

U

Unna boot dressing; *see* **Bandages**
Upcoming educational programs
Upcoming educational programs. 1997;15:37, 82, 110

V

Varicose ulcer
Experience with open-heeled Unna boot application technique (Maune and Giordano). 1997;15:63-72
A forever healing: The lived experience of venous ulcer disease (Chase et al). 1997;15:73-8
Using cluster analysis to develop a healing typology in vascular ulcers (Johnson). 1997;15:45-9
Venous ulceration: Active approaches to treatment (Kowallek and De Palma). 1997;15:50-7
Varicose veins
Treatment and prevention of varicose veins (Johnson). 1997;15:97-103
Vascular diseases
An investigation of the explanatory model of venous disease: A pilot study (Nunnelee and Spaner). 1997;15:131-3
Use of store and forward technology for vascular nursing teleconsultation service (Lewis et al). 1997;15:116-23
View Box
View Box. 1997;15:104-6, 134-5

W

Wound healing
A forever healing: The lived experience of venous ulcer disease (Chase et al). 1997;15:73-8
Using cluster analysis to develop a healing typology in vascular ulcers (Johnson). 1997;15:45-9
